Caden Epp

Software Engineer

Professional Summary

I am a highly motivated software developer with a strong drive to make a meaningful impact in the tech industry and within every role I take on. My motivation fuels a constant pursuit of growth, pushing me to become better every day through dedication, reflection, and practice. Guided by an obsession with curiosity, I actively seek opportunities to explore new ideas, technologies, and perspectives, allowing me to continually expand my knowledge and refine my craft. This blend of ambition and curiosity not only strengthens my technical abilities but also deepens my capacity to contribute creatively and effectively to the field.

Phone: (785) 844-2586

Website: https://cadenepp.com

Email: dev@cadenepp.com

Location: Ottumwa, Iowa (Flexible)

Education

AAS in Computer Software Development | 2025-2026

Indian Hills Community College

- GPA: 4.0

BA in Data Science with a Minor in Computer Science | 2026

Indian Hills Community College - Iowa State

- GPA: 4.0

Highlighted Projects

All Projects

https://cadenepp.com/Projects

AI Orchestrated RAG & Memory System

https://github.com/AniCell-Biotech/.github

- Engineered an end-to-end RAG pipeline with a custom memory system to automate and scale veterinary treatment recommendations.
- Built a full-stack supervisor dashboard and REST API for human-in-the-loop AI review, feedback tracking, and automated PDF generation.

AI Random SideQuest (ByteJam 25' Student Choice Winner)

https://github.com/cadenepp/SideQuestByteJam25

- AI Random SideQuest is an interactive full-stack, choice-based adventure game built with Next.js, TypeScript, Spring Boot, and SQL.
- It integrates the LLaMA AI model to dynamically generate storylines, dialogue, and character interactions.

Notable Awards

- Presidents List, IHCC, 2025-2026
- PTK Award, Prestigious Recognition, 2025

Skills

Languages: Java, C#, C, C++, JavaScript, TypeScript, HTML, CSS, Python, PHP, SQL, Kotlin, COBOL, Jinja. YAML, Terraform

Frameworks: SpringBoot, .NET(EF Core, ASP.NET), React(Next.js, Vue.js, Angular, Node, Vite, Webpack), Tailwind, Flask

Cloud & DevOps: AWS, Azure, CI/CD Pipelines & Systems(GitHub Actions, ADO), Docker Containers, Kubernetes

Database: MySQL, PostgreSQL, MongoDB, SQLAlchemy, SQLServer

Tools: Fireworks AI, Git, Android Studios, Claude Code(MCP)

Professional Skills: Scrum/Agile Methodology, Public Speaking

Certifications

- AWS Certified Cloud Practitioner (April 2025)
- Azure Fundamentals - Microsoft Certified (August 2026)

Experience

Software Developer Intern 2026 - 2026

Cambridge Investments Research - Compliance Development Team

- Engineered a comprehensive backend system using REST APIs and serverless functions to process and deliver Prosurv trade alerts to Financial Professionals.
- Modernized CI/CD pipelines by refactoring legacy YAML configurations and migrated authentication from a standalone OAuth 2.0 system to an API Management (APIM) gateway.
- Resolved enterprise-level data synchronization issues to ensure accurate and compliant integration with FINRA and SEC datasets.

Computer Software Development Tutor 2025 - 2026

Indian HIlls Community College

- Supporting students by explaining programming concepts and guiding them through coursework.
- Assisting with problem-solving, debugging, and building confidence in technical skills.

Achievements

- Started my own Podcast - Let's Tech About It | https://www.letstechabit.com/
- Leadership role as secretary for the CSD Club
- Invited to a special instructor-led class, offered exclusively to select students, to help organize and lead the CSD Club's largest annual event, ByteJam.
